

Rémy Beumier

Front-end Developer

I'm a web lover focused on front-end technologies.

I code everyday for a living and a hobby in Brussels always looking to improve myself by searching, experimenting and learning.

Experience

Front-end Developer

BICS // August 2022 - December 2022

- React Component Library based on Figma and built with Ant Design, Less and Storybook.
- JavaScript Component Library based on Figma and built with JS, Sass and Storybook.

Front-end Developer & Integrator

Positive Thinking Company // November 2020 - Now

- Paris Padel Major website built with React, Emotion and styled-system.
- African hotels website built with React, Emotion and styled-system.
- Canadian zoo website built with React, Emotion and styled-system.
- E-commerce project from scratch working with Angular, PrimeNG and Sass.
- Banking platform built in Angular with Sass and theming.

Front-end Developer
