Experience

Senior Front-end Developer @Yuzzu

YUZZU // AUGUST 2025 - NOW

> Senior Front-End Developer (Odyssey team) driving platform modernization, feature development, and performance for Yuzzu's customer-facing insurance web application.

YUZZU WEBSITE: DIRECT INSURANCE PLATFORM

- Customer-facing pages and interactive quote/contract flows using Next.js, Redux, and Prismic, with full-stack contributions in .NET/C# and PostgreSQL.
- Codebase replatforming, introduced style guides and test suites, and elevated web accessibility, SEO/GEO, and front-end performance.

Senior Front-end Developer @Orange-VOO

ORANGE-VOO // JUNE 2023 - AUGUST 2025

> Senior front-end developer at Orange-VOO in service experience team. Different web and mobile projects, from scratch or to improve, using React, TypeScript, Node.js and Firebase.

BISTRO: WEB APP FOR TECHNICIANS MANAGEMENT, EVALUATION AND REPORTING

- Development from scratch using React, TS and Firebase
- Fully manageable data via advanced tables and forms
- CRON functions for reports, calculation, emails and backups

WALL-E: WEB APP FOR AUTOMATION, ASSET AND TICKET MANAGEMENT

- Type safety with TypeScript
- Automation scripts with Testcafe
- Front-end development in React, TS, CSS-in-JS
- Back-end improvements in Node.js, MySQL and Firebase

VOICES: MOBILE APP FOR ADVANCED COMMUNICATION WITH TESTERS

- React Native development with Expo for iOS and Android
- Real time database with Firebase
- Real time data, chat and notifications

COMPANION: DESKTOP APP FOR WI-FI ANALYTICS AND INTERACTIVE DATA

- Development from scratch using Electron, Node.js, React, TS and Firebase
- Windows-specific APIs: low-level system and Wi-Fi performance data
- Responsive, fast and handy dashboard screens for instant field evaluation by on-site technicians

Skills

DEVELOPMENT SKILLS

- React
- JavaScript
- TypeScript
- Redux
- Next.js
- Node.js
- Firebase
- CSS
- HTML
- Npm
- Yarn
- JSON
- Jest
- React testing Library
- Storybook
- Sass
- Less
- CSS-in-JS
- Bootstrap
- Bulma
- Tailwind
- ES6
- Git

METHODOLOGIES AND TOOLS

- Scrum Agile
- Responsiveness
- Accessibility
- Cross-browser compatibility
- BEM
- Atomic design
- SEO
- Confluence
- Jira
- Figma

Front-end Developer & Integrator @PTC

POSITIVE THINKING COMPANY // NOVEMBER 2020 - AUGUST 2025

> Front-end developer and integrator in the PTC Delivery Center, I worked on different projects, mostly in React, using industry standards such as Scrum agile, Git, Npm, Confluence, Jira and Figma.

PARIS PADEL MAJOR: PADEL TOURNAMENT WEBSITE.

- Front-end development from Figma design using React and CSS-in-JS (Emotion & Styled-system)
- Used advanced CSS grid developed for the layout of the blog, image and video items
- Conducted tests with Jest and React Testing Library

ONOMO: AFRICAN HOTELS WEBSITE

- Integration and front-end development from Figma designs to React and CSS-in-JS coding
- Complete booking process with advanced forms such as a Date picker, phone numbers (regex) and custom select
- Improved the internal React Boilerplate

OMEGA: CANADIAN ZOO WEBSITE

- Integration and front-end development from Figma designs to React and CSS-in-JS coding
- Complex components in the likes of a Swiper, a Carousel, Deep navigation bar and Filtering
- Used recent CSS features in the names of Image clip-path and CSS grids

ELI PARIS: JEWELLERY E-COMMERCE WEBSITE

- Integration development from InVision designs to Angular and Sass
- CSS from scratch with Sass leveraging Grids and Multi-columns layouts

Front-end Developer @BICS

BICS // AUGUST 2022 - DECEMBER 2022

> Front-end developer on a 5-month long mission to manage the development of two BICS Components libraries. Based on an internal design system (Figma), I engineered one for React projects and another for a JavaScript team.

REACT JS BICS COMPONENT LIBRARY

- Developed 30+ components to be integrated on various web applications using React, Ant Design and Less
- Ensured theming capabilities to match projects color schemes with Less pre-processor
- Conducted functional, visual, accessibility and responsiveness tests through Storybook
- Documented development process and usage via Storybook

JAVASCRIPT COMPONENT LIBRARY

- Developed 30+ components to be integrated on a crucial internal application using JavaScript and Sass
- Ensured CSS scalability and maintainability with Sass and CSS variables

SOFT SKILLS

- Problem-solving
- Life-long learning
- Prioritisation and time management
- Open communication
- Adaptability
- Teamwork

LANGUAGES

- French
- English

- Conducted functional, visual, accessibility and responsiveness tests through Storybook
- Documented development process and usage via Storybook

Front-end Developer @KPMG

KPMG BELGIUM // MAY 2017 - NOVEMBER 2020

> Development and improvement of internal websites working with different front-end languages (e.g., HTML, CSS, JS) and transversal tools.

UMBRACO CMS: CODING OF WEBSITES

- Development from base layout using HTML, CSS (Sass) and JavaScript to match business requirements for 3 new sites: KPMG Careers, KPMG Law and KPMG Alumni
- Created new components with advanced features such as Splash video, Carousels, Custom map, Instagram feed, Events and Job fetching (JSON) to match extra needs from the departments
- SEO improvements and analytics setup working closely with marketing team
- Websites fully responsive and cross-browser compatibility down to Internet Explorer 9 implementing, for example, CSS media queries, Bootstrap and polyfills
- Documented development process and content creation

SHAREPOINT: CREATION OF CUSTOM WEB PARTS

- Upgraded the intranet from SharePoint 2013 to 2016 by recreating, redesigning and improving the pages in line with the different departments using HTML, CSS and JS
- Created custom web parts for special cases
- Taught and documented how to use the intranet, create content and the basics of web development

AEM: CRAFTING OF CUSTOM PAGES

- Developed special pages for marketing campaigns using HTML, CSS and JS
- Built an internal promotional calendar and carousel inside Adobe Experience Manager with specific needs from a department
